German Campaign Against Foreign Words.

Berlin, Aug. 6.—The campaign against foreign words continually takes on new and often amusing phases. The latest is a protest against giving foreign names to dogs. Even the Greek and Latin Hektor and Nero are found objectionable. Proposed substitutes are Blitz (lightning), Flammé (flame), Zorn (anger), and a long list of monosyllabic adjectives such as Free, Fast, Strong, True and Sty. Or, says one proposal, friends of nature can use the names Stream, Water, Birch, Oak, Fir or Flower.

Will of Wealthy French Woman.
Paris, Aug. 6.—The will of a wealthy woman resident of Marseilles, who died a few days ago, contains the following clause: "If I die before the end of hostilities, I ask that my body may be laid provisionally in the family vault, and that it shall eventually be interred in the field where the final decisive victory is gained. I leave the whole of my fortune to the town which bears the name of this victory."

Strike Committee Says None of the Men Will Go Back. They Are in the Right and Will Win Out—Y. M. C. A. Team to Play at South Coventry.

A committee of the striking moulders from the Vanderman Foundry company, who have been on strike since July 23, have made a statement in regard to conditions, taking exception to the company's statement given out Thursday that ten men were at work as moulders at the factory, and that some of the strikers had returned to their work. The committee says that none of the men will go back, but that they feel they are in the right and will win out.

They state: "We desire through the courtesy of your paper to state that those men were not from the beginning considered by us as being out in sympathy with the strike. Of the five men who have gone back to work, only one of the men was on the list of discharged employees July 22nd, and placed there, we have good reason to believe, for blind. Four of those men never came to any of our meetings, and it would have been better if the other never had, for he would never have broken a solemn binding obligation to his fellow workers, an oath he took on initiation into the Iron Moulders' union a week ago tonight. There is today a strike in this city 23 striking moulders, nine apprentices and four helpers, adding to the list seven which we have secured employment out of town, and the total of 42 out of 48 men employed in the foundry, leaving a balance of six (for that is the correct number instead of ten) who are continuing work here today. Thanking you for your space, we remain, Committee of Striking Moulders."

To Play at South Coventry.
Weather permitting, the tennis team of the local Y. M. C. A. will journey to South Coventry this afternoon about two o'clock to try conclusions with the team of that place. Judge W. A. Arnold, Alfred Abbe, F. H. Pease and S. B. Doolittle will probably comprise the team. A. E. Peterson, a former principal of the Windham High school, who is summing in South Coventry, will play with their representatives.

Benefit Dance.
The striking moulders from the Vanderman Foundry company are arranging for a dance to be given for the benefit of the local branch of the Iron Moulders' union.

Claim For Damages.
Mrs. Amanda Billings of Windham, through her attorney, Samuel E. Harvey, has made a claim to the selectmen of this town for damages on account of injuries sustained by her when thrown from a team while traveling on the highway between Scotland village and Windham Center, June sixth last. The accident is said to have been caused by a large rock at the side of the road, at which the horse took fright.

FOWL UNSATISFACTORY.
Disagreement Results in Rough Handling For Norwich Dealers.

Two chicken dealers from Norwich, who gave their names as S. Colt and Sam Tuber, and George Rood of Windham Center, were the participants in a fracas at the home of the latter Friday morning, during which the Norwich visitors received some rough dealing, and on their arrival in this city, where they came to make complaint to Thomas J. Kealey, assistant prosecuting attorney of the police court, want to the office of a physician for treatment.

They stated that they had an arrangement with Rood to buy chickens, but when they went after the fowl, they were skinned and not as fat as they refused to take them, whereupon Rood pitched into them, and chased them out of the yard. They were in such a hurry that they left their automobiles standing there and came to this city.
Mr. Rood says, however, that his wife went to give the chickens to the dealer, and they refused to take them, whereupon Rood pitched into them, and chased them out of the yard. They were in such a hurry that they left their automobiles standing there and came to this city.

INCREASING NUMBER OF PANAMA POLICE.
Much Opposition is Heard to the Additional Expense.

Panama, Aug. 6.—(Correspondence of The Associated Press.)—Many new policemen are daily being added to the already numerous Police Nacional of the Republic of Panama. Three months ago the national police are reported to have numbered about 1,000 men and officers, while today the number of officers and men has reached 1,200.

The national police already costs the republic more than \$125,000 gold a year and much opposition has been heard in many quarters to the recent heavy increase which greatly adds to the expense. Many of the new officers and men are to be stationed in

the two cities of Panama and Colon. It is declared in government circles that the new men are being added in anticipation of the presidential and national election next year. It is pointed out that they will be needed to preserve order and assure a fair election at what is looked forward to as the bitterest campaign in the republic's history. It is also stated that the new policemen are being enrolled so that interference to preserve peace and constitutional authority by the United States officials will be unnecessary. Such action was taken in 1912 by the American authorities at the request of both political factions.
